

Protection 365 Plan

Year-Round Protection for Your Propane Gas Line

Protection 365 Plan* gives homeowners added peace of mind with coverage for damaged interior and exterior propane gas lines. It's a simple way to protect your home from unexpected repair costs while keeping your propane system safer, more reliable, and easier to manage.

How It Helps

Propane gas lines are an important part of keeping your home comfortable and running smoothly. Protection 365 Plan helps support that system by giving you coverage if a gas line is damaged — helping you avoid the stress and expense of handling repairs on your own.

Is This Program Right for You?

PROTECTION 365 PLAN IS IDEAL IF YOU:

- Want to safeguard against costly, unexpected repairs
- Rely on propane appliances throughout your home
- Value dependable, year-round comfort, safety, and confidence
- Want an easy way to help protect your home investment

Underground Tank Ownership

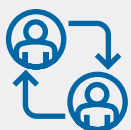

If you own—or are considering installing an underground propane tank, it's important to understand your maintenance and safety responsibilities. Proper upkeep helps protect your tank, your property, and your propane service over time.

KEY OWNERSHIP CONSIDERATIONS INCLUDE:

- Proper tank placement and protection from vehicles or impact
- Avoiding damage during digging or excavation projects
- Monitoring for corrosion and maintaining required protection systems
- Staying aware of weather-related risks, including flooding
- Understanding warranty and insurance considerations

Terms and conditions may apply. Visit sharpenenergy.com/protection365 for details.

**This program is available in select Sharp Energy service areas and is not currently available in Florida.*

Customer Referral Rewards
